We see in the New Year in great form and in our rightful position on top of the SPL. A trip to Parkhead our first obstacle to overcome in 2010.... bring it on.... Looking forward to seeing all of you at the Celtic game. We are missing a few faces we frequently saw last season and we would like to find out why... we know the economy is one of the reasons but if there are other things keeping you away we would like to know about them drop me an e-mail at [john.s.baxter@rogers.com](mailto:john.s.baxter@rogers.com) and let me know as we are continually looking at ways to improve the club and all feedback will be treated as confidential. So far The GERS are coming up aces during the holiday schedule so get out to see them... Follow, Follow... though the roads be broad or narrow....

Got to switch my automatic McGregor pick as player of the month for December and give it to the Dynamic Duo - Miller and Boyd who are scoring for fun in December and should be an automatic pick for the Scotland strike force now the George Burley has left the scene.

Our continued best wishes go out to Jack Webster who continues to fight on in Princess Margaret ... haste ye back Jack....

### KEEP ON SMILING....

Sandy went to the movie theater showing a revival of the old British comedy The Mouse That Roared. After the movie began, he became aware of an odd laugh several rows back. Turning, he noticed a Shetland sheepdog sitting beside his owner and laughing hysterically. Within moments the dog was in the aisle, convulsed with laughter. Sandy ambled over to the owner. " Say, I just can't believe your sheepdog here ! "

" Neither can I, " said the owner. " He hated the book."
